

## Hotel ZAZA

### High Profile Hotel Restored Back to Life and Fit for Celebrities

This high profile hotel in North Downtown Dallas caters to high society and celebrities when they visit the area. The hotel finish had gotten dingy and had ivy growing on the surface in several areas. The painting contractor came in and removed the ivy vines, cleaned the surface with a cleaning solution and applied two coats of Sto Corp.'s elastomeric decorative coating, which is weatherproof, dirt-resistant and bridges hairline cracks. Next an exterior finish with a pronounced self-cleaning effect was applied to provide a clean, sparkling look for many years.
