**StoQuik® Silver DrainScreen™**
**Rough Opening Protection over Wood Frame**

**Detail No.: 11.20a DS**
**Date: January 2015**

**ATTENTION**
Stop products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

**Notes:**
1. Prepare opening prior to the installation of the window or mechanical equipment.
2. Incorporate flashing as illustrated in 11.25a DS - 11.26a DS.
3. The complete installation of window or mechanical equipment should include an air seal between the object and the StoGuard™ protection inbound of the outer sealant joint.
4. Refer to Sto Specification QS 200 DS for complete information on design requirements, installation and accessories.

**Rough Opening Protection over Wood Frame**
