Please note

The colors presented on this chart are representations. Actual color of manufactured product may vary slightly from the chart. Color perception is affected by degree of gloss, texture, and lighting conditions. For best results always request a product sample, select color under natural lighting conditions, and construct full scale job site mock ups for final color approval.

Minor shade variations may occur from batch to batch (refer to batch no. on pail). Avoid installing separate batches side-by-side and avoid application in direct sunlight. Avoid installing new finish adjacent to weathered or aged finish. Sto Corp. will not be responsible for shade or color variation from batch to batch, variation caused by application or substrate deficiencies, or fading resulting from natural causes such as weather. See Sto Tech Hotline Nos. 0694-C, 0893-EC and 1202-CF for helpful tips on prevention of color problems.

For Continuous Insulation Systems select colors with light reflectance value of 20 or greater.

Notas

Los colores que aparecen en este muestrario son representaciones. El color real del producto puede variar ligeramente con el del muestrario. El color percibido es afectado por el grado de brillantez, la textura y las condiciones de luz. Para la obtención de los mejores resultados, deberá siempre solicitar una muestra del producto, seleccionar el color bajo condiciones de luz natural, y elaborar muestras en la obra misma para la aprobación final del color.

Pueden presentarse pequeñas variaciones en el tono, de remesa a remesa (favor de referirse al número de remesa en la cubeta). Evite aplicar adjuntas remesas diferentes, así como a la luz solar directa. Igualmente, evite aplicar el acabado nuevo adjunto a acabados viejos o intemperizados. Sto Corp. no se responsabiliza por la variación en color o tono de remesa a remesa, al método de aplicación, deficiencias en la base, o por decoloración debido a causas naturales como el clima. Favor de consultar a los Nos. 0694-C, 0893-EC y 1202-CF de Sto Tech Hotline para recibir indicaciones para prevenir problemas.

Para Sistemas de Aislamiento Térmico por el Exterior, seleccione colores con un valor reflejante de luz del 20 o mayor.
