

Building with conscience.

StoColor® Metallic

Standard Metallic Color Collection

Facades

Interiors

StoColor® Metallic offers designers further flexibility and expands the already extensive creative options under the Sto umbrella with the ability to achieve a metallic panel look with a variety of color and texture options.

StoColor Metallic Color Collection

StoColor Metallic is accomplished by combining two Sto products – StoColor Metallic Base and StoColor Metallic Top Coat over either smooth or textured surfaces. Options abound with StoColor Metallic both in color selection and surface application. With the new StoColor Metallic in their repertoire, designers will have creative freedom to follow their inspiration.

StoColor System

- Quick and easy to understand thanks to a clear, logical system construction
- Offers a harmonic, finely tailored selection of color for interior and exterior use
- Is ergonomic and perception oriented for all phases of color selection and implementation

Colección de colores Metálicos StoColor

Los colores metálicos de StoColor se logran combinando dos productos: el StoColor Metallic Base y el StoColor Metallic Top Coat, sobre superficies lisas o con texturas. Las opciones abundan con los colores metálicos de StoColor, tanto en la selección de colores como en la aplicación en las superficies. Con el nuevo repertorio, los diseñadores tendrán gran libertad creativa para desarrollar su inspiración.

Sistema StoColor

- Fácil de comprender, debido a su presentación clara y lógica
- Ofrece una selección armónica y a la medida, de colores para interiores y exteriores
- Es ergonómico y orientado hacia toda fase para la selección e implementación de colores

Please note

The colors presented on this chart are representations. Actual color of manufactured product may vary slightly from the chart. Color perception is affected by degree of gloss, texture, and lighting conditions. For best results always request a product sample, select color under natural lighting conditions, and construct full scale job site mock ups for final color approval.

Minor shade variations may occur from batch to batch (refer to batch no. on pail). Avoid installing separate batches side by side and avoid application in direct sunlight. Avoid installing new finish adjacent to weathered or aged finish. Sto Corp. will not be responsible for shade or color variation from batch to batch, variation caused by application or substrate deficiencies, or fading resulting from natural causes such as weather. See Sto Tech Hotline Nos. 0694-C, 0893-EC and 1202-CF for helpful tips on prevention of color problems.

For Exterior Insulation and Finish Systems (EIFS) select colors with light reflectance value of 20% or greater.

Por Favor Nota

Los colores que aparecen en este muestrario son representaciones. El color real del producto puede variar ligeramente con el del muestrario. El color percibido es afectado por el grado de brillantez, la textura y las condiciones de luz. Para la obtención de los mejores resultados, deberá siempre solicitar una muestra del producto, seleccionar el color bajo condiciones de luz natural, y elaborar muestras en la obra misma para la aprobación final del color.

Pueden presentarse pequeñas variaciones en el tono, de remesa a remesa (favor de referirse al numero de remesa en la cubeta). Evite aplicar adjuntas remesas diferentes, así como a la luz solar directa. Igualmente, evite aplicar el acabado nuevo adjunto a acabados viejos o intemperizados. Sto Corp. no se responsabiliza por la variación en color o tono de remesa a remesa, al método de aplicación, deficiencias en la base, o por decoloración debido a causas naturales como el clima.

Favor de consultar a los Nos. 0694-C, 0893-EC y 1202-CF de Sto Tech Hotline para recibir indicaciones para prevenir problemas.

Para Sistemas de Aislamiento Exterior y Acabado (EIFS), seleccione colores con un valor reflejante de luz del 20% o mayor.
