

StoTique Finish System

StoTique: The New Way to Achieve an Old Look.

StoTique is the exterior and interior coating that can be applied over any Sto finish to achieve an antique or mottled appearance that will make any new surface look hundreds of years old.

There is no better way to project quality and unique design than with StoTique over superior Sto finish systems.

StoTique can be used for residential and commercial projects and gives distinct advantages for both the designer and the owner. The designer can finally achieve a historic, old-world look for any structure giving it a truly unique appearance. The owner enjoys the latest trend in residential design, while taking advantage of the efficiency and reliability of modern materials.

StoTique can also be used to help blend in newly repaired and recoated structures into existing developments and neighborhoods. Why struggle with the potential problems of creating quality work that fails to blend in with the environment? StoTique allows you to renovate with the peace of mind knowing that your work will use the best materials available and be considered authentic.

Builders and Developers looking for a niche in their marketplace can make their projects stand out with StoTique coatings. Rich colors, easy installation, and reliable performance from Sto's superior finish systems gives them the key competitive advantage needed to stand head and shoulders above the rest.

Contact your local distributor for more information. For field-testing results and competitive performance studies, please visit us at www.stocorp.com or call us toll-free at 888-552-4111.

The color and texture options available with StoTique are limited only by your imagination. Aside from having Sto's team of color experts available to provide you with the support needed to realize new color selections; the StoTique finish system is extremely versatile and can easily adapt to ever-changing customer demand.
