Notes:
1] Local codes may prohibit foam plastic below grade. Consult codes before constructing this detail.

2] Melting snow and ice may hold water against the system for prolonged periods, resulting in greater maintenance requirements for the finish. In these locations provide greater separation between the finish and finished grade.

3] Consult Sto for information on Below Grade System.

ATTENTION

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.
