

StoPowerwall® Commercial Window Head

Date: December 2015

Notes:

- 1] Provide a mock-up installation and test using materials and substrates associated with the project.
- 2] Provide flashing installed over the window to direct water away from the window. Verify requirements for head flashing with local codes and window manufacturer.
- 3] Protect rough opening against water penetration by wrapping with Sto Guard®. Direct any water penetration to the exterior at or above the sill pan flashing. (Refer to Sto detail 4.09)
- 4] Provide continuous air barrier connection around the perimeter of the window to reduce leaking, condensation related to air movement and sound and insect intrusion.
- 5] Provide window insert to optimize sealant configuration.

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.
