ATTENTION

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

STO CORP. DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO’S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

StoPowerwall® DrainScreen™
System Components

Notes:
1. Detail shows the installation of StoPowerwall® DrainScreen™ over a wood frame wall.

Sto System Components:
1. Sto joint treatment
2. StoGuard® Waterproof Air Barrier Membrane options:
   a. Sto EmeraldCoat® (high perm)
   b. StoGuard® VaporSeal™ (vapor impermeable)
3. Sto DrainScreen™
4. StoPowerwall® scratch coat
5. StoPowerwall® brown coat
6. Sto Primer
7. Sto Finish (smooth or textured)

Accessory Materials:
(including means for fastening)
1. Galvanized expanded diamond mesh metal lath
2. Casing bead
3. Other accessories as may be required.
   (e.g. weep screeds, etc.)

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.
ATTENTION

StoPowerwall® DrainScreen™
Deck Flashing

Sheathing
StoGuard® Waterproof Air Barrier Membrane
Sto DrainScreen™
Code Compliant Water-Resistive Barrier
Galvanized Expanded Diamond Mesh Metal Lath
Floor Line Joint (Refer to Sto Detail 5.50 DS)
Casing Bead

Deck Flashing Assembly
Deck Stringer
Casing Bead
StoPowerwall®
Sto Primer
Sto Finish (smooth or textured)

Sto Joint Treatment
(Refer to Sto Detail 5.09 DS)

Notes:
1. Install StoGuard® Waterproof Air Barrier Membrane on the sheathing as per plans and specifications.
2. Install deck flashing to divert water away from penetrations and to drain water to the exterior of the finished cladding.
3. Provide backer rod and sealant between the deck flashing assembly and the stucco casing beads installed around the vertical sides and sill

Options:
StoGuard® Waterproof Air Barrier Membrane options:
   a. Sto EmeraldCoat® (high perm)
   b. StoGuard® VaporSeal™ (vapor impermeable)

Detail No.: 5.32 DS
Date: October 2014

StoPowerwall® DrainScreen™
System Components over CMU

Date: October 2014

ATTENTION
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, of for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

www.stocorp.com

Notes:
1. Detail shows the components of Sto Powerwall® DrainScreen™ over CMU
2. Sto DrainScreen™
3. StoPowerwall® scratch coat
4. StoPowerwall® brown coat
5. Sto Primer
6. Sto Finish (smooth or textured)

Accessory Materials:
(including means for fastening)
1. Galvanized Expanded Diamond Mesh Metal Lath
2. Casing bead
3. Other accessories as may be required (e.g., weep screeds)

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

Concrete Masonry Units (CMU)
StoGuard® Waterproof Air Barrier Membrane
Code Compliant Water-Resistant Barrier
(Optional component over CMU when Sto DrainScreen™ is incorporated in the wall assembly)
Sto DrainScreen™
Galvanized Expanded Diamond Mesh Metal Lath
Casing Bead
StoPowerwall® Scratch Coat
StoPowerwall® Brown Coat
Sto Primer
Sto Finish (smooth or textured)

Sto System Components:
1. StoGuard® Waterproof Air Barrier Membrane options:
   a. Sto EmeraldCoat®
      2 coat minimum
      (high perm)
   b. StoGuard® VaporSeal™
      1x 32 mil dry coat minimum
      (vapor impermeable)
2. Sto DrainScreen™
3. StoPowerwall® scratch coat
4. StoPowerwall® brown coat
5. Sto Primer
6. Sto Finish (smooth or textured)

Note:
Detail applies to normal weight CMU. CMU joints must be struck flush with surface. Cracks up to 1/8” (3mm) wide must be treated with Sto joint treatment. Additional coats of StoGuard Waterproof Air Barrier Membrane may be required depending on condition of CMU wall surface, CMU porosity, joint profile, and other variables that may exist. For “rough” CMU wall surfaces skim coat first with Sto cementitious leveler. A void and pinhole free surface is required in StoGuard for waterproofing/air barrier performance.

StoGuard® Waterproof Air Barrier Membrane
Code Compliant Water-Resistive Barrier
(Optional component over CMU when Sto DrainScreen™ is incorporated in the wall assembly)

Sto Powerwall®
Scratch Coat
Brown Coat

Sto Finish
(smooth or textured)

Sto Guard®
Waterproof Air Barrier Membrane
Code Compliant Water-Resistive Barrier
(Optional component over CMU when Sto DrainScreen™ is incorporated in the wall assembly)

Sto DrainScreen™

**Sto Detail Component** (Refer to Sto Detail 5.09 DS)

**Option:**

**StoGuard® Waterproof Air Barrier Membrane options:**

- **Sto EmeraldCoat®** (high perm)
- **StoGuard®VaporSeal™** (vapor impermeable)

**Notes:**

1. Install stucco weep screed to terminate a minimum of 1” below bottom of wood plate and a minimum of 8” above finished grade or as required by code.

2. Lap StoGuard® waterproof air barrier membrane, code compliant water resistive barrier and Sto DrainScreen™ onto weep screed to direct water to the exterior.

3. Provide waterproofing at the foundation to protect the support structure from rising damp.

**IMPORTANT:** Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

**www.stocorp.com**
StoPowerwall® DrainScreen™
Rough Opening Protection with Sto Gold Fill® and StoGuard® Mesh

**Step 1**
Place 2” (50mm) wide strip of StoGuard® Mesh lapping onto face of wall diagonally at corners of opening.

**Step 2**
Place minimum 4” (100mm) StoGuard® Mesh at all sheathing joints.

Wrap sill with 9” (230mm) wide StoGuard® mesh returning up the jambs a minimum of 4” (100mm)

**Step 3**
Wrap jambs with minimum 9” (230mm) wide StoGuard® Mesh, lapping minimum 2.5” (64mm) over extension from sill, then wrap head.

Coat StoGuard® Mesh with Sto Gold Fill®

**Step 4**
Coat the entire surface of the wall and into rough opening with StoGuard® waterproof air barrier membrane.

**Notes:**
1. StoGuard waterproof air barrier membrane options:
   a. Sto EmeraldCoat® (high perm)
   b. StoGuard® VaporSeal™ (vapor impermeable)

2. Prepare opening prior to the installation of the window or mechanical equipment. Provide sill wedge or other means for positive slope to exterior of sill.

3. Incorporate flashing as illustrated in other details where flashing is shown.

4. The complete installation of window or mechanical equipment must include an air seal between the object and the StoGuard® protection, inbound of the outer perimeter weather seal.

5. Refer to Sto specifications and product bulletins for detailed information on substrates and Sto material options. Additional water-resistant barrier and Sto DrainScreen™ not shown.

**ATTENTION**
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. **Property of Sto Corp. All Rights Reserved.**
**StoPowerwall® DrainScreen™**

**Rough Opening Preparation**

**Detail No.: 5.21a DS**

**Date:** October 2014

---

**Notes:**

1. Prepare opening prior to the installation of the window or mechanical equipment. Coordinate installation with other associated trades.

2. Wrap the rough opening with Sto rough opening protection. Choose from Sto Details:
   - 5.20 M DS
   - 5.20 F DS
   - 5.20 T DS
   - 5.20 R DS

3. Coat the wall surface with StoGuard® Waterproof Air Barrier Membrane

4. Incorporate head flashing as noted in Sto Detail 5.21b

5. For box windows incorporate pan flashing as noted in Sto Detail 5.21c DS

6. For nail-fin windows incorporate sill flashing under the window as noted in Sto Detail 5.21d DS

**Options:**

StoGuard® Waterproof Air Barrier Membrane options:

- Sto EmeraldCoat®
  - (high perm)

- StoGuard® VaporSeal™
  - (vapor impermeable)

---

**ATTENTION**

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. StoPowerwall® DrainScreen™
Window Head Flashing Preparation

**Notes:**

1. Prepare the rough opening
   (See Sto Detail 5.21a DS)
2. Provide head flashing as required by local codes and window manufacturer.
3. Coordinate installation of moisture barrier and flashing with window installer and other related trades.

**Options:**

StoGuard® Waterproof Air Barrier Membrane options:

- a. Sto EmeraldCoat®
  (high perm)
- b. StoGuard® VaporSeal™
  (vapor impermeable)

**ATTENTION**

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Sto Corp. disclaims all warranties expressed or implied except for explicit limited written warranties issued to and accepted by building owners in accordance with Sto’s warranty programs which are subject to change from time to time. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

**IMPORTANT:** Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

**www.stocorp.com**
**StoPowerwall® DrainScreen™**
Pan Flashing at Opening Sill

**Detail No.: 5.21c DS**
**Date: October 2014**

**Notes**
1. Wrap opening as shown in Sto Detail 5.21a DS
2. Install one or more beads of neutral-cure, silicone sealant on the sill and jamb.
3. Install the sill pan flashing into the wet sealant and press it into place. Tool any excess sealant off at the top of the side dams and back edge of the pan flashing.
4. When installed the seal between the pan flashing and the rough opening protection must be air tight.
5. Install Sto Joint Treatment to the end dams so water draining down the jamb will be directed into the pan flashing and out of the wall assembly.

**Options:**
StoGuard® Waterproof Air Barrier Membrane options:
- a. Sto EmeraldCoat® (high perm)
- b. Sto®VaporSeal™ (vapor impermeable)

**ATTENTION**
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. **www.stocorp.com**
**StoPowerwall® DrainScreen™**

**Sill Flashing: Nail-fin Window**

---

**Step 1**

1. Prepare rough opening.
   (See Sto Detail 5.20 DS)

2. Install flashing below the rough opening.

3. Prepare the flashing with Sto Joint Treatment.

4. Install the nail-fin window with an air seal around the interior perimeter of the window and with spacers at the sill to create a gap for water to drain between the sill flange and the StoGuard® Waterproof Air Barrier Membrane.

**Options:**

StoGuard® Waterproof Air Barrier Membrane options:

- Sto EmeraldCoat® (high perm)
- StoGuard® VaporSeal™ (vapor impermeable)

**Step 2**

- Sheathing
- Sto Joint Treatment
  (See Sto Details 5.09 DS & 5.20 DS)
- Sill Wedge
- StoGuard® Waterproof Air Barrier Membrane
- Sto Joint Treatment
  (See Sto Details 5.09 DS & 5.20 DS)
- Flashing
- Wood Frame
- Sto Joint Treatment
  (See Sto Details 5.09 DS & 5.20 DS)
- Air Seal
- Window
- Spacer
- Code Compliant Water-Resistant Barrier
- Flashing
- Sto DrainScreen™

---

**Notes:**

1. Prepare rough opening.
   (See Sto Detail 5.20 DS)
2. Install flashing below the rough opening.
3. Prepare the flashing with Sto Joint Treatment.
4. Install the nail-fin window with an air seal around the interior perimeter of the window and with spacers at the sill to create a gap for water to drain between the sill flange and the StoGuard® Waterproof Air Barrier Membrane.

---

StoPowerwall® DrainScreen™
Brick Mold Window Head

Date: October 2014

Notes:
1. Protect the rough opening from water penetration by wrapping with StoGuard®
   (See Sto Details: 5.09 DS and 5.20 DS)
2. Provide head flashing over the window to direct water away from the window. Fold flashing over the window head-jamb interface or provide head flashing end dams, depending on window type and design.
3. Provide continuous air barrier around the interior perimeter of the window to reduce leaking, condensation related to air movement, sound and insect intrusion.
4. Install expansion joint at the corner of the opening to allow for the release of stresses in the stucco

Options:
- StoGuard® Waterproof Air Barrier Membrane options:
  a. Sto EmeraldCoat® (high perm)
  b. StoGuard® VaporSeal™ (vapor impermeable)

ATTENTION
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

STO CORP. DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO’S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.
**StoPowerwall® DrainScreen™**

**Termination at Soffit**

**Notes:**

1. Install StoGuard® Waterproof Air Barrier Membrane on the sheathing as per plans and specifications.

2. StoGuard® air barrier is a component in the air barrier assembly for a building.

The design professional or builder must provide connections to other components in the system to make the entire envelope air tight. This detail assumes that the air barrier connection would be made prior to the installation of the 1x treated nailing strip.

**Options:**

StoGuard® Waterproof Air Barrier Membrane options:

a. Sto EmeraldCoat® (high perm)

b. StoGuard® VaporSeal™ (vapor impermeable).

**ATTENTION**

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, of for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

**IMPORTANT:** Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

StoPowerwall® DrainScreen™
Floor Expansion Joint

Sheathing
StoGuard® Waterproof Air Barrier Membrane
Code Compliant Water-Resistant Barrier
Sto DrainScreen™
Galvanized Expanded Diamond Mesh Metal Lath
StoPowerwall®
Sto Primer
Sto Finish
(smooth or textured)
Flashing
StoGuard® Waterproof Air Barrier Membrane
Casing Bead
Sto Joint Treatment
(Refer to Sto Detail 5.09 DS)
Closed Cell Backer Rod
StoGuard® Transition Membrane
Floor Joist
Rim Joist
Wood Frame

Notes:
1. Install closed-cell backer rod into sheathing joint to support barrier membrane.
2. Install StoGuard® Transition Membrane so that it laps over StoGuard® below. Clamp the top edge of StoGuard® Transition Membrane with the flashing and shingle lap StoGuard® joint treatment over the flashing leg.

Options:
StoGuard® Waterproof Air Barrier Membrane options:

a. Sto EmeraldCoat®
   (high perm)
b. StoGuard® VaporSeal™
   (vapor impermeable)

ATTENTION
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

Sto Corp. disclaims all warranties expressed or implied except for explicit limited written warranties issued to and accepted by building owners in accordance with Sto’s warranty programs which are subject to change from time to time. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.
**StoPowerwall® DrainScreen™**
One-Piece Expansion Joint
(ASTM C 1063 Control Joint)

---

**Notes:**

1. Provide one-piece expansion joints at minimum 144 ft² (13.4 m²) intervals and typically above and below window, door, and similar openings in the wall construction.

2. Do not exceed length to width ratio of 2.5:1 in joint layout and do not exceed 18 ft (5.5 m) in any direction without a joint.

3. Lap metal reinforcement (lath) over joint accessory flanges and wire tie. Alter natively, install metal reinforcement, snip (cut) at line of accessory, and wire tie joint accessory over metal reinforcement.

**METAL REINFORCEMENT MUST BE DISCONTINUOUS BENEATH THE JOINT ACCESSORY**

---

**ATTENTION**

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

**STO CORP DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO’S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME.** For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.
StoPowerwall® DrainScreen™
Joint at Inside Corner: Different Substrates

ATTENTION

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

STO CORP. DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO’S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

Notes:
1. Wrap Sto joint treatment approximately 4” (200 mm) in each direction around the inside corner. Terminate the Sto joint treatment on the CMU side of the wall assembly so it coincides with the termination line of the accessory expanded flange.

Options:
StoGuard® Waterproof Air Barrier Membrane options:
- a. Sto EmeraldCoat® (high perm)
- b. StoGuard® VaporSeal™ (vapor impermeable)

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

StoPowerwall® DrainScreen™
Joint at Inside Corner: Common Substrate

**Date:** October 2014

**Notes:**
1. Install Sto joint treatment around inside corner. Coat entire surface with StoGuard® Waterproof Air Barrier Membrane.
2. Bend lath at inside corner and extend past corner minimum 24” (610mm) in both directions or use corner lath over abutted metal lath. Fasten securely at the corner.

**Options:**
StoGuard® Waterproof Air Barrier Membrane options:
- a. Sto EmeraldCoat® (high perm)
- b. StoGuard® VaporSeal™ (vapor impermeable)

**IMPORTANT:** Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

**ATTENTION**

For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.
**StoPowerwall® DrainScreen™**

**Outside Corner**

**Notes:**

1. Install Sto Joint Treatment around sheathing joint at the outside corner.
   (See Sto Detail 5.09 DS)

2. Install galvanized expanded diamond mesh metal lath continuous around corner without break for minimum 24” (610mm).

3. Attach corner bead over lath.

4. Metal accessories are susceptible to corrosion in coastal environments. Metal corner beads with solid metal noses are susceptible to corrosion in exposed exterior applications.

**Options:**

- StoGuard® Waterproof Air Barrier Membrane options:
  a. Sto EmeraldCoat® (high perm)
  b. StoGuard® VaporSeal™ (vapor impermeable)

**ATTENTION**

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. StoPowerwall® DrainScreen™
Roof/Wall Diverter Flashing

Date: October 2014

Detail No.: 5.62 DS

ATTENTION
Products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, of for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

STO CORP DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO’S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

Sheathing
Galvanized Expanded Diamond Mesh Metal Lath
Sto Joint Treatment

StoPowerwall®
Sto Primer
Sto Finish (smooth or textured)
Code Compliant Water-Resistive Barrier

Terminate 2”(50mm) above finished roof
Casing Bead
Sto DrainScreen™
Step Flashing
Roof Finish
Seal between Casing Bead and Diverter
Diverter Flashing
Edge Flashing
Gutter
StoGuard® Waterproof Air Barrier Membrane

Options:
StoGuard® Waterproof Air Barrier Membrane options:
- Sto EmeraldCoat® (high perm)
- StoGuard® VaporSeal™ (vapor impermeable)

Options:
StoGuard® Waterproof Air Barrier Membrane

Notes:
1. Install StoGuard® prior to installation of flashing.
2. Provide step flashing minimum 4”(100mm) extending up the wall.
3. Provide StoPowerwall® overlap of the step flashing 2”(50mm) and terminate StoPowerwall® minimum of 2”(50mm) above the finished roof. The space permits re-roofing at a future date and helps prevent debris from accumulating between roof and StoPowerwall®.
4. Terminate the step flashing with a water-tight Diverter (kick-out) Flashing to direct water into the gutter
Referto Sto Detail 2.62b on fabrication of the Diverter Flashing.
5. Provide a 3/8”(10mm) joint around the Diverter Flashing and Seal

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

www.stocorp.com
StoPowerwall® DrainScreen™
Saddle Flashing

Detail No.: 5.65 DS
Date: October 2014

Notes:
1. Install StoGuard® waterproof air barrier membrane behind flashing assembly integrated with compatible roof or barrier membrane over the Parapet.
2. Install saddle flashing assembly.
   (Refer to Sto Detail 1.65b for Assembly of Saddle Flashing.)
3. Install Sto joint treatment over the top of the saddle flashing and stucco weep screed termination.
   (Refer to Sto Detail 5.09 DS)
4. Lap StoPowerwall® over the flashing assembly at the top by a minimum of 2” (50mm) and terminate with 3/8” (10mm) joint around the perimeter.

Options:
- StoGuard® Waterproof Air Barrier Membrane options:
  a. Sto EmeraldCoat® (high perm)
  b. StoGuard® VaporSeal™ (vapor impermeable).

IMPORTANT: Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

ATTENTION
Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto’s instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto’s control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.

Sto Corp. disclaims all warranties expressed or implied except for explicit limited written warranties issued to and accepted by building owners in accordance with Sto’s warranty programs, which are subject to change from time to time. For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.

**StoPowerwall® DrainScreen™**

**Foam Build-Outs**

**Дата:** Октябрь 2014

**Примечание:**

1. Максимальная толщина пенопласта, допустимая по коду, обычно составляет 4" (100 мм).

2. Вы的缘 поверхность должна иметь минимальный уклон 1:2 (27°). В местах, где могут накапливаться лед и снег, уклон следует увеличить.

3. Предоставить Sto Flexyl™ и сетку на верхние поверхности элемента выступающего более 2" (50 мм) от поверхности стucco.

**Опции:**

*StoGuard®* Пенетретор для водонепроницаемого барьера:

- *Sto EmeraldCoat®* (высокая проницаемость)
- *StoGuard®* *VaporSeal™* (воздушно-пароизоляционный)

**Code Compliant Water-Resistive Barrier**

**Sto DrainScreen™**

**Sto Joint Treatment** (см. Sto Detail 5.09 DS)

**Galvanized Expanded Diamond Mesh**

**Sto Powerwall®**

**Sto Flexyl™** и сетка на верхнюю поверхность (см. примечание 3)

**Sto Base Coat и сетка** наклеены на поверхность *Sto Powerwall®*

**Foam Build-Out**

**Sto Primer**

**Sto Finish** (гладкая или текстурированная)

**Foam Build-Out** меньше 2" (50 мм)

**ATTENTION**

**Sto** продукты предназначены для использования профессиональными строителями, а не конечными потребителями, как составная часть более крупной строительной композиции, установленной квалифицированным специалистом, строителем или подрядчиком. Они должны быть установлены в соответствии с указаниями Sto и инструкциями. Sto Corp. отказывается от всякой ответственности за ошибочные применения, работу незакаленных или непрофессиональных работников, а также от неконтролируемых действий, включая несанкционированные или некомпетентные работы, выполняемые независимо от контроля Sto, а также от неправильных процессов выполнения строительных работ или утраты какой-либо из компонентов или строительных работ, выполняемых за пределами контроля Sto. Некорректное использование Sto продуктов или использование какого-либо из них в некомпетентной или некорректно выполненной строительной композиции или утрате данных может привести к повреждению Sto, и к структуре здания или его компонентов.

**STO CORP.
